Digital comparison only

Rideau Brown

Driftwood Beige

Sandal Wood

Silvered Almond

Calico Linen

Classic White

Coastal Grey

Hartford Green

Phantom Black

Mineral Bronze

DIGITAL REFERENCE ONLY

Important color & screen disclaimer

This guide helps compare finishes, but it is not an exact color standard and should not be used for final color approval.

- **FINISH COLORS VS. SCREEN MATERIAL**

These swatches show frame and component finishes. Insect mesh, solar or privacy fabric, and clear vinyl are separate materials with their own colors, weave, openness, texture, and light transmission.

- **APPEARANCE CAN CHANGE**

Photography, displays, printing, lighting, viewing angle, surrounding finishes, and backlighting can change how colors and screen materials appear. Mesh may look lighter, darker, or more transparent as conditions change.

- **COMPONENT & BATCH VARIATION**

Slight differences may occur among aluminum, plastic, hardware, fabric, vinyl, replacement parts, and production batches. New parts may not exactly match older or weathered parts.

- **AVAILABILITY**

Finish and material choices vary by product, size, and configuration and may change. Custom colors and wood-grain finishes may be available.

FINAL COLOR APPROVAL

Before ordering, review a current physical finish sample and the selected mesh or fabric in lighting similar to the installation area. Confirm all colors and materials on the written quote.
